1. Title: RANGE IMPROVEMENT PROJECT #378 - MBM
LIVESTOCK "SPIKE" TREATMENT, PIPELINE &
TROUGH

Applicant: Trust Lands Administration

Description: SITLA grazing permittee, MBM Livestock (Ken Knight, et.al.), in cooperation with the Natural Resources Conservation Service (NRCS), proposes to aerially apply "Spike" herbicide on approximately 640 acres of Trust Land according to NRCS specifications. The herbicide is designed to reduce sagebrush density and increase herbaceous vegetation. They also propose to construct a 0.75 mile pipeline from an existing well to the southeast corner of the Trust Land section and install a water trough. Grazing control practices will also be implements.

	N/A	N/A	Received 1-27-2010

Comments: The Utah State Trust Lands Administration proposes to authorize a vegetation treatment and pipeline extension on 640 acres located on Mud Springs Bench in north-central Iron County. The activities will improve grazing conditions for the permittee. Regional policies support efforts to improve rangeland conditions. (Ken Sizemore)
